

EPCglobal US Support Tools

EPCglobal US develops tools that support the practical, standards-based implementations of the Electronic Product Code (EPC). EPCglobal US Value Models, Vendor Profiles, Implementation Notes, Web Broadcasts, and the EPCglobal US KnowledgeBase, will help you move through the entire EPC implementation lifecycle, from Getting Started to Building a Business Case to Implementation. Whether you are in the initial research phase, assessing your needs, choosing a vendor, or implementing EPC/RFID, we can help you achieve your goals.

To access the Support Tools listed below, visit www.EPCglobalUS.org and login using your User Id and Password.

The *Support Tools* tab on the website will provide you access to the following:

Getting Started:

- On-boarding Kit
- How to Obtain your EPC Manager Number
- RFID Cookbook
- FAQs
- RFID Basics Video

Build a Business Case:

- The EPCglobal Network
- EPC Value Models
- Peloton Tool

Implement Now:

- Hardware Certification Program
- Performance Test Center Accreditation
- Implementation Notes
- Find a Solution Provider using our Vendor Profiles
- Key Learnings

All EPCglobal US content is also available and searchable through the KnowledgeBase on the Subscriber-only website located at www.EPCglobalUS.org/knowledgebase

On the following pages, you will find two of the Implementation Notes offered to our Subscribers to help your company prepare for EPC/RFID adoption today.
